Job Details

Description

ForeFlight is looking for an Intern to join our tech org. Our apps are essential to help pilots safely and efficiently fly their airplanes and we live up to that responsibility. We are customer focused and known for our fanatical customer support, which extends down to our engineering teams. We run the code we build.

Over the summer, you will be assigned projects to help tackle real issues. You will be able to jump right in, contributing meaningful work to your team. You will also be provided opportunities to network with ForeFlight employees and fellow interns.

Skills And Requirements

- Work with your team members to solve real world problems with relevant projects that may be included in a future software release
- Write clear, efficient, and maintainable code
- General knowledge of front end and back end languages
- Understanding of algorithms and data structures and how to efficiently implement them into a solution
- Be a self-starter and possess a strong sense of self-motivation
- Enjoy learning new technologies
- Committed to producing quality work
- Problem solving and analytical skills; enjoys solving technical problems
- Ability to manage time effectively
- Strong listening skills with the ability to intake basic technical information
- Team-player with the ability to work effectively and efficiently with others

About ForeFlight, LLC

ForeFlight produces the best-selling iPad and iPhone app for pilots flying personal and business aircraft, corporate flight departments, and aircraft operators. Customers include individual pilots worldwide, Fortune 500 corporate flight departments, state and federal agencies, leading operators, and leading aircraft OEMs. We have been in the App Store

since Day 1 (7/10/2008) and are consistently ranked in the top 50 grossing iPad apps in the App Store.

We are known for our exceptional software user interface design and responsive, knowledgeable customer support team. ForeFlight Mobile, our flagship application, was named Aviation Consumer's 2011 App of the Year and received Flying Magazine's Editors' Choice Award for 2011, 2012, and 2013.

We are a product-focused company where software development and customer service are the top priorities.
