JOB DESCRIPTION

Job Title

2025 Software Engineer Program - Summer Internship
(Code for Good Hackathon) - United States

Short description

Be part of a dynamic and diverse team engineering large-scale, complex, and resilient technology solutions that drive our global business.

Posting description

The Code for Good hackathon gives you the chance to put your coding skills towards doing good for nonprofit organizations. It's also a great opportunity to see whether a career in technology is for you.

As a Participant in the 2024 Code for Good Hackathon, you will get to work side by side with our expert JPMorgan Chase technologists, learning from their experience as you creatively solve real world problems faced by social organizations. You are encouraged to come up with cutting-edge ideas that could make a difference to the people who need it most. In addition to networking with other aspiring software engineers from around the country, you will have a chance to meet our recruiting teams and experience what it's like to work as a software engineer at JPMorgan Chase. Your participation in the Code for Good hackathon may lead to an offer for the 2025 Software Engineer Internship.

Over the course of 24 hours (Friday – Saturday), you and your assigned team will develop a technology solution for a leading nonprofit organization. You will need to bring your own laptop to the event. Travel expenses will be covered by JPMorgan Chase, though conditions will apply.

Further details around location, timing, and final schedule will be provided to selected applicants.

If you're ready to put your passion for technology to work in a way that makes a real difference, you'll find your place in our Software Engineer Internship. *This role is a pipeline to our full-time Software Engineer Program.*

As a Summer Intern in the Software Engineer Program, you will help build and optimize digital applications and systems that support millions of customers, clients, and employees worldwide. The Internship will begin with an induction covering our tech strategies, products, and systems, as well as an overview of our technology community. You will work in an agile team with peers and experienced software engineers to grow your skills, share ideas and innovate with our technology community all over the world. The summer internship will provide opportunity to gain deeper insight into what it means to work here through networking events, senior speaker sessions and peer-mentorship programs. At the end of the summer, top performers may receive the opportunity to join us for a full-time role upon graduation.

JPMorgan Chase & Co. (NYSE: JPM) is a leading financial services firm with operations worldwide. With over 55,000 technologists globally and an annual tech spend of \$15 billion, JPMorgan Chase is dedicated to innovating and improving the design, analytics, development, coding, testing and application programming that goes into creating high quality software and new products. Under the J.P. Morgan and Chase brands, the Firm serves millions of customers in the U.S., and many of the world's most prominent corporate, institutional and government clients globally. Visit <http://www.jpmorganchase.com/tech> for more information.

Job Responsibilities

- Create innovative solutions that make a difference for our customers, clients, and employees
- Work on agile teams with peers and experienced software engineers

Required qualifications, capabilities and skills

- Pursuing a B.A., B.S. or 5th year M.A. or M.S. with expected graduation between December 2025 and June 2027 (all majors considered)
- A well-rounded academic background

- Foundational knowledge of programming languages (e.g., Python, JavaScript, Java, C++, C#), databases, data structures and algorithms
- Experience across the entire Software Development Life Cycle (SDLC)
- Exposure to agile methodologies such as CI/CD, Application Resiliency and Security
- Emerging knowledge of software applications and technical processes within a technical discipline (e.g., cloud, artificial intelligence, machine learning, mobile, etc.)
- In touch with industry wide technology trends and best practices
- Ability to work in large, collaborative teams to achieve organizational goals, and passionate about building an innovative culture
- Understanding of software skills such as business analysis, development, maintenance, and software improvement

Preferred qualifications, capabilities, and skills

- Computer Science and/or Engineering majors are preferred

Locations you may join:

- Atlanta, GA
- Austin, TX
- Chicago, IL
- Columbus, OH
- Houston, TX
- Jersey City, NJ
- New York Metro, NY
- Palo Alto, CA
- Plano, TX
- Seattle, WA
- Tampa, FL
- Wilmington, DE

To be eligible for this program, you must be authorized to work in the U.S. We do not offer any type of employment-based immigration sponsorship for this program.

Likewise, JPMorgan Chase, will not provide any assistance or sign any documentation in support of any other form of immigration sponsorship or benefit including optional practical training (OPT) or curricular practical training (CPT.)

What's Next?

To be considered for Code for Good, you must complete the following steps:

1. Please read the **Official Rules** before you start this application.
2. Help us learn about you by submitting a complete and thoughtful application, which includes your resume and location preference. Your application and resume are a way for us to initially get to know you, so it's important to complete all relevant application questions so we have as much information about you as possible.
3. On your application form, please select the JPMorgan Chase locations that you are most interested in learning about. Selected applicants will be invited to attend one of the hackathons with technologists and recruiters best matched to your work location preference.
4. After you confirm your application, we will review it to determine whether you meet certain required qualifications. If you are advanced to the next step of the process, you'll receive an email invitation to complete a coding challenge powered by HackerRank. This is your opportunity to further bring your resume to life and showcase your experience for our recruiting team and hiring managers.
5. HackerRank is required, and your application will not be considered for further review until you have completed this step. We strongly encourage that you apply and complete these required elements as soon as possible, since programs will close as positions are filled.
6. Selected applicants will be notified via email with final event details for the event.
7. The 2025 Software Engineer Program - Summer Internship (Code for Good Hackathon) role is open until October 11, 2024 unless the class is filled before that date. Applications will be reviewed on a rolling basis. We strongly encourage you to submit your application as early as possible as programs will close once positions are filled.

Code for Good Event Dates and Locations:

- Jersey City, NJ : September 21-September 22
 - Welcoming participants interested in New York Metro (Jersey City, Manhattan, Brooklyn)
 - Application Deadline: August 30, 2024

ABOUT US

JPMorgan Chase & Co., one of the oldest financial institutions, offers innovative financial solutions to millions of consumers, small businesses and many of the world's most prominent corporate, institutional and government clients under the J.P. Morgan and Chase brands. Our history spans over 200 years and today we are a leader in investment banking, consumer and small business banking, commercial banking, financial transaction processing and asset management.

We offer a competitive total rewards package including base salary determined based on the role, experience, skill set, and location. For those in eligible roles, we offer discretionary incentive compensation which may be awarded in recognition of firm performance and individual achievements and contributions. We also offer a range of benefits and programs to meet employee needs, based on eligibility. These benefits include comprehensive health care coverage, on-site health and wellness centers, a retirement savings plan, backup childcare, tuition reimbursement, mental health support, financial coaching and more. Additional details about total compensation and benefits will be provided during the hiring process.

We recognize that our people are our strength and the diverse talents they bring to our global workforce are directly linked to our success. We are an equal opportunity employer and place a high value on diversity and inclusion at our company. We do not discriminate on the basis of any protected attribute, including race, religion, color, national origin, gender, sexual orientation, gender identity, gender expression, age, marital or veteran status, pregnancy or disability, or any other basis protected under applicable law. We also make reasonable accommodations for applicants' and employees' religious practices and beliefs, as well as mental health or physical disability needs. Visit our FAQs for more information about requesting an accommodation.

JPMorgan Chase is an Equal Opportunity Employer, including Disability/Veterans
