# Software Engineering Intern

US-IL-Chicago

**ID** 2024-3345    **Category** Engineering/Development    **Type** Intern

## Overview

We are seeking candidates interested in a Software Engineering Summer internship. As an Engineering intern, you will work on existing products and contribute to the design of new product features. You will build intuitive and highly scalable web applications using the Microsoft stack.

Origami Risk is currently recruiting for candidates interested in a 12-week, paid, in-person internship based in our Chicago office during Summer 2025. Interns will be paid a total of \$12,600, with the internship program running from May 19th, 2025 through August 8th, 2025.

## Responsibilities

- Build entire features across all layers (database, services, and Web UI)
- Build responsive web applications that work across different screen sizes
- Support and manage client product implementations
- Technology experience must include ASP.NET, MVC, SQL Server, C#, HTML/CSS, and JavaScript

## Qualifications

- Working towards a bachelor's or Master's degree in computer science or related technical discipline is required
- Experience with c++, c# or java is required
- Strong communication skills, intelligence, and drive; must be able to work in a self-driven manner within a fast-paced, entrepreneurial environment
- Ability to quickly learn and apply new technologies

## Who We Are

Origami Risk provides integrated SaaS solutions to organizations across the risk and insurance ecosystem — from insured corporate and public entities

risk and insurance ecosystem from insured corporate and public entities to brokers and risk consultants, insurers, third party claims administrators (TPAs), and risk pools. We deliver our risk management and insurance core system solutions from a cloud-based platform that is highly configurable, completely scalable, and accessible via web browser and mobile app.

Dais Technology, a subsidiary of Origami Risk, provides a no-code platform that revolutionizes insurance product creation for MGAs, insurers, and reinsurers. Dais' event-based architecture enables AI-driven bundling, automation, and real-time deployment.

Solutions from Origami Risk and Dais Technology are backed by a best-in-class service team of experienced risk and insurance professionals who possess a balance of industry knowledge and technological expertise. A singular focus on helping clients achieve their business objectives underlies our approach to developing, implementing, and supporting our risk management, safety, compliance, and insurance core system technology solutions.

*Origami Risk is proud to be an equal opportunity employer. We thrive and benefit from diversity and are committed to creating an inclusive and equitable environment for all employees. We do not discriminate against any individual based upon race, religion, gender (including pregnancy, childbirth, or related medical conditions), sexual orientation, gender identity, gender expression, color, sex, national origin, age, marital status, military or veteran status, disability, or any other characteristic protected*
