Engineering Development Group (EDG) Internship

MathWorks

Software Engineering · Intern

Natick, MA, USA

Posted on Thursday, August 29, 2024

[**APPLY HERE**](#)

About this Program

Seeking Spring, Summer and Fall Interns/Co-ops!

Calling all aspiring engineers and computer scientists! Join our Engineering Development Group and get ready for a hands-on experience in a friendly and innovative environment. We believe in rewarding creativity, teamwork, and having a great time while learning. As an intern, you'll have the opportunity to make a real impact by contributing to a cutting-edge project alongside brilliant and passionate colleagues. Together, we'll push the boundaries of engineering and science.

During your time with us, you'll have the opportunity to further develop your knowledge of software engineering, testing, and debugging. You'll also develop foundational skills like effective communication, problem-solving, and time management.

Responsibilities

You'll collaborate closely with product teams to implement updates for a future release of one of our 100+ products. Get ready to dive into the exciting world of engineering and gain valuable experience that will set you apart.

This internship will prepare you for a career at MathWorks starting in our [Engineering Development Group \(EDG\)](#).

Qualifications

Qualifications Preferred

- Working toward a degree in Engineering or Computer Science
- Experience with object orientated design and in programming languages such as: C++, JavaScript, or MATLAB
- Passion for learning new technologies
- Minimum 3 month commitment

MathWorks is an equal opportunity employer.
