Management Level
Intern/Trainee

Job Description & Summary
At certain point of your studies you are making decisions about your future career considering all kinds of information, listening to friends and close people, but there is nothing like your own experience. An internship at PwC not only offers an opportunity to build your skills and confidence, but also to work on projects that give you insight into who we are and what we do whether for our clients, the economy, or the wider community. Working alongside specialists in your chosen business area, you'll be a valued member of the team, with graduate level responsibility. You'll be assigned to projects to develop your understanding of what we really do and you'll build networks with your colleagues and peer groups. Whichever business area you choose, we're sure you'll find this a worthwhile investment of your time. Be it the people; the networks; or the social events, you'll be surprised at the

skills you'll develop and how much you'll learn. Opportunity is at the heart of a career at PwC and our Internship offers just that.

To really stand out and make us fit for the future in a constantly changing world, each and every one of us at PwC needs to be a purpose-led and values-driven leader at every level. To help us achieve this we have the PwC Professional; our global leadership development framework. It gives us a single set of expectations across our lines, geographies and career paths, and provides transparency on the skills we need as individuals to be successful and progress in our careers, now and in the future.

As an Intern / Trainee, you'll work as part of a team of problem solvers, helping to solve complex business issues from strategy to execution. PwC Professional skills and responsibilities for this management level include but are not limited to:

- Be curious and try new things.
- Learn about how PwC works as a business and adds value to clients.
- Think broadly and ask questions about data, facts and other information.
- Support research, analysis and problem solving using a variety of tools and techniques.
- Produce high quality work which adheres to the relevant professional standards.
- Keep up-to-date with technical developments for area of specialism.
- Handle, manipulate and analyse data and information responsibly.
- Communicate confidently in a clear, concise and articulate manner - verbally and in materials produced.
- Embrace different points of view and welcome opposing and conflicting ideas.
- Uphold the firm's code of ethics and business conduct.

PwC's Start interns support internal firm functions, meaning our "clients" are internal PwC professionals. Start Interns are expected to:

- Support select projects; demonstrate creative thinking and individual initiative while working as a team member; build solid relationships with team members;
- Proactively seek guidance, clarification and feedback; and,
- Demonstrate flexibility with task completion and prioritization, communicating potential conflicts to a supervisor.
