Job Summary:

Our Global Engineering organization is currently looking for Software Engineering interns to join us in Boston and Raleigh. You will work closely with a senior mentor to gain technical knowledge and experience in your field, and cooperate with a broader international team both locally and globally.

In this role, you will work in an environment where diverse perspectives are invited, the best ideas are valued, and people feel empowered to contribute. Freedom and courage are two of our core values, which is why you can practice taking risks and exploring the unknown and developing strengths. Yet being a Red Hatter isn't just about being brave; it's also about demonstrating commitment and sticking to it.

The focus for Red Hat's Intern Program is a dual partnership between the Emerging Talent Team, and our intern managers. We can offer you professional development, social engagement and networking, performance and

Software Engineering Internship

Apply

- Add new features, debug, identify, and track issues in Red Hat products (RHEL, OpenShift, or other)
- Collaborate with the wider team members and other departments such as Quality Engineering, Designers, Product Management or Documentation team throughout the product cycle
- Network with other talented interns in an inclusive and diverse workplace where you can be yourself and thrive

Required Skills:

- Graduate between December 2025 and May 2026
- Working knowledge of written and spoken English
- Basic knowledge and willingness to use Python, Golang or similar programming language
- Passion, curiosity, and desire to create new things and examine how things work internally
- Willingness to learn and proactively work as a part of a wider team

About Red Hat

Red Hat is the world's leading provider of enterprise open source software solutions, using a community-powered approach to deliver high-performing Linux, cloud, container, and Kubernetes technologies. Spread across 40+ countries, our associates have the flexibility to choose the work environment that suits their needs from in-office to fully remote to office-flex. Red Hatters are encouraged to bring their best ideas, no matter their title or tenure. We're a leader in open source because of our open and inclusive environment. We hire creative, passionate people ready to contribute their ideas, help solve complex problems, and make an impact. Opportunities are open. Join us.

Diversity, Equity & Inclusion at Red Hat

Red Hat's culture is built on the open source principles of transparency, collaboration, and inclusion, where the best ideas can come from anywhere and anyone. When this is realized, it empowers people from diverse backgrounds, perspectives, and experiences to come together to share ideas, challenge the status quo, and drive innovation. Our aspiration is that everyone experiences this culture with equal opportunity and access, and that all voices are not only heard but also celebrated. We hope you will join our celebration, and we welcome and encourage applicants from all the beautiful dimensions of diversity that compose our global village.

Equal Opportunity Policy (EEO)

Red Hat is proud to be an equal opportunity workplace and an affirmative action employer. We review applications for employment without regard to their race, color, religion, sex, sexual orientation, gender identity, national origin, ancestry, citizenship, age, veteran status, genetic information, physical or mental disability, medical condition, marital status, or any other basis prohibited by law.

Red Hat does not seek or accept unsolicited resumes or CVs from recruitment agencies. We are not responsible for, and will not pay, any fees, commissions, or any other payment related to unsolicited resumes or
